

CSR Policy

Mavyn.in

Your Digital Trucking Partner

Mavyn is committed to Corporate Social Responsibility (CSR) and is an integral part of our business. Therefore, we put our experience to good use to help people and the environment, striking a balance between our economic and social responsibility goals. “Live responsibly” is our motto. To achieve it we firmly believe that there are three main areas that help us achieve our goal of ensuring that we leave the planet a better place for future generations.

Our efforts are focused on these specific areas:

- **Stakeholders** - by uplifting Socio-Economic conditions of all stakeholders
- **Environment** - through our Environmental Policy
- **Economy** - delivering value addition in products and services
